

Dear Colleagues

I hope that you, your loved ones, and school communities continue to remain safe and well and that you managed to have a break of sorts over the Easter holiday.

I am writing to provide you with some updates on recent TSC activity during what is clearly a particularly challenging time for colleagues in our sector.

1. Since its recent redesign, the **CPD SW portal's C19 dashboard** which signposts relevant resources and guidance for school and system leaders dealing with school lockdown, has had an impressive number of site visitors, particularly to the 'Support for School Leaders' page. Please do share this link across your networks so that colleagues remain connected and updated during the current crisis:
<https://www.cpdportal-sw.org/team-south-west/support-for-school-leaders>
2. To continue to inform our work during the summer term and ensure that we can offer the right kinds of support, TSC SW is very keen to get a sense of the current needs of the South West school system. To this end, we have designed a short survey for school and system leaders to assist us in designing a remote CPLD/support offer for the summer term. Please do take a few minutes to complete the survey and feel free to share the link with your colleagues in the SW.

Link to survey: <https://forms.gle/ZZpJiYftzkHVp6wd8>

If you are unable to access the survey or have any difficulties completing it, please contact Kelly Broome on: admin.sw@tscouncil.org.uk

We would like to receive survey returns no later than Friday 24th April.

3. Attached to this letter you will also find the latest update from the NCETM, outlining their revised Maths offer of support during school closure that is designed for children, parents and schools, which I encourage you to share across your own networks where appropriate.

Lastly, as we head into a very uncertain summer term please do look after yourselves and do not hesitate to get in touch if you have any questions or require any additional support or guidance.

Kind Regards

Chrysta Garnett
